The attachments listed below are translations of purported copies of the following documents in Czech:

- Covering letter from the Czechoslovak Ministry of Heavy Machinery, dated 21 November 1951, distributed within the Ministry and to the national enterprises (also known as national corporations) subordinate to it (1 page).
- B. List of ministries and economic organs participating in the elaboration of allotments for 1952, as of 30 November 1951 (2 pages).
- List of national enterprises, grouped according to their subordination to the ministries and their administrative divisions, as of 30 November 1951 (70 pages). This list covers the ministries listed under numbers 1 through 14 in Attachment B; the ministries and economic organs listed under numbers 15 through 24 in Attachment B are not included in Attachment C.

Attachment A

MINISTRY OF HEAVY MACHINERY Department of Sales

SECRET

Subject: List of National Enterprises according to Ministries as per the organization status of 30 November 1951.

Official in charge of execution: Ing. Cevela.

In the course of the organization of economic organs of 1 October 1951, the national enterprises were grouped under the new ministries.

A survey of the new organizational subordination of the enterprises is needed for the drawing up of materiel balances, plans of distribution, sales records, materiel procurement, planning, etc.

Regulations will be issued within the very near future requiring the suppliers and consumers in their mutual contract relations to indicate the subordination to the respective ministry together with the name of the firm.

Since there is an urgent need to furnish the enterprises with a survey of the organizational subordination of national enterprises, we are issuing the attached list to be used in national enterprises and in the bodies of material procurement of the main departments of the Ministry of Heavy Machinery.

The list contains:

- 1). A list of ministries and economic institutions to which funds of goods will be alloted in the year 1952;
- 2). A list of national enterprises according to ministries.

Your attention is drawn to the fact that this list is classified secret and that it should be handled according to the regulations pertaining to the maintenance of secrecy.

Prague, 21 November 1951.

Ministry of Heavy Machinery Department of Sales:

Ing. Stepanek.
